Subject: RE: Summary of Season Cost Estimates

Steve:

Regarding the ERDC CAD Cell modeling field sampling, the following are my notes from the Oct 24 Mtg:

1. Sampling to be completed by Jacobs in April/May of 2009 with results available to all by mid-June.
2. Sampling timeline is dictated by weather conditions and will be completed sooner if possible.

Subject: Summary of Season Cost Estimates

Hi Everyone,

The purpose of this e-mail is to provide you with a quick summary of the cost estimates, reports, and groundwater modeling activities that we have initiated or will soon.

We will be meeting tomorrow morning at the Site to discuss priorities for the various activities and I thought that this spreadsheet would be a good starting point for discussions.

Please e-mail me if you have any questions.

Thanks,

Steve
